

Facilitating Professional Development of Teachers

Client Business Description

- ◇ Australian company that owns and invests in companies involved in technology and education. Currently holds interests in businesses with operations in United States, Australia, the United Kingdom, New Zealand and Asia.

Background

- ◇ Editure is involved in technology of Education using audio-visual technology, tutoring, supplemental education, professional development, corporate training and educational services.

Challenge

- ◇ School Principal observes teachers periodically to evaluate their performance and identify ways to improve their performance.
- ◇ Traditionally, this has been done by administrators who take written notes while in the classroom and upon returning to their office transcribe the notes to submit a formal report.

Idea

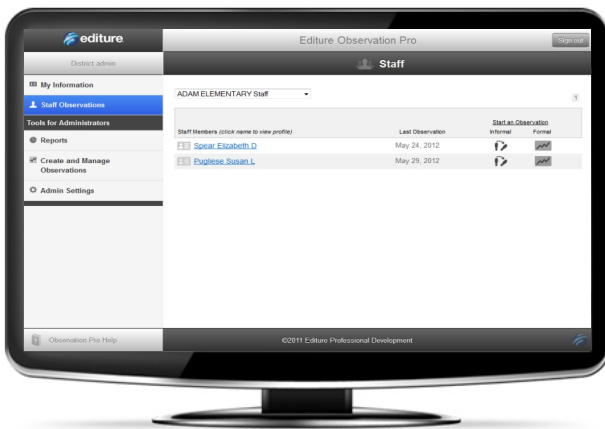

- ◇ Ideally when an observation is made it leads to a plan for providing the teacher with professional development to address particular needs.
- ◇ In order to assist this process, Editure wanted to develop an App to enable Administrators to generate a report for an individual teacher that can be emailed or printed.

Our Solution

- ◇ Mobile Pundits developed an iPad App that provides a rubric and also allows schools to enter their own rubric.
- ◇ The rubric allows administrator to check boxes, to indicate if a teacher has demonstrated a particular skill. It also provides a way for the administrator to make notes.
- ◇ The data captured from iPad app can be imported in a management system to maintain records for individual teachers that include observations, recommended professional development, and professional development that has been completed.

Technologies Used

- iOS
- PHP
- Apache
- MySQL
