

Mobile Platform For Tracking and Protecting Your Children

Background

- ◇ St Louis, Missouri Company offering a suite of mobile applications for monitoring / personal safety using smart phones & tablets. The system can be used by parents, businesses, schools, etc.

Challenge

- ◇ The app started with an idea to alleviate the anxieties that parents have for loved ones, specially kids whose geo-locations / internet activities / media usage pattern tracked via SmartPhones / Tablets can be used to trigger alerts. These alerts may help a parent to predict what can become a regrettable accident later.
- ◇ Unwillingness of teenagers to be tracked from their phones.

Idea

- ◇ Develop a platform that enables users to effectively monitor and track Phone Contacts, Text Messages, Phone Calls, Calendar Activity, Web Sites Visited, Photos, Video Files, Sound Files, Record Acoustic / Environmental Surroundings, Locations / Heatmaps on Smartphones / Tablets in a stealth mode.
- ◇ Provide custom monitoring solutions utilizing Android and Server side technologies.

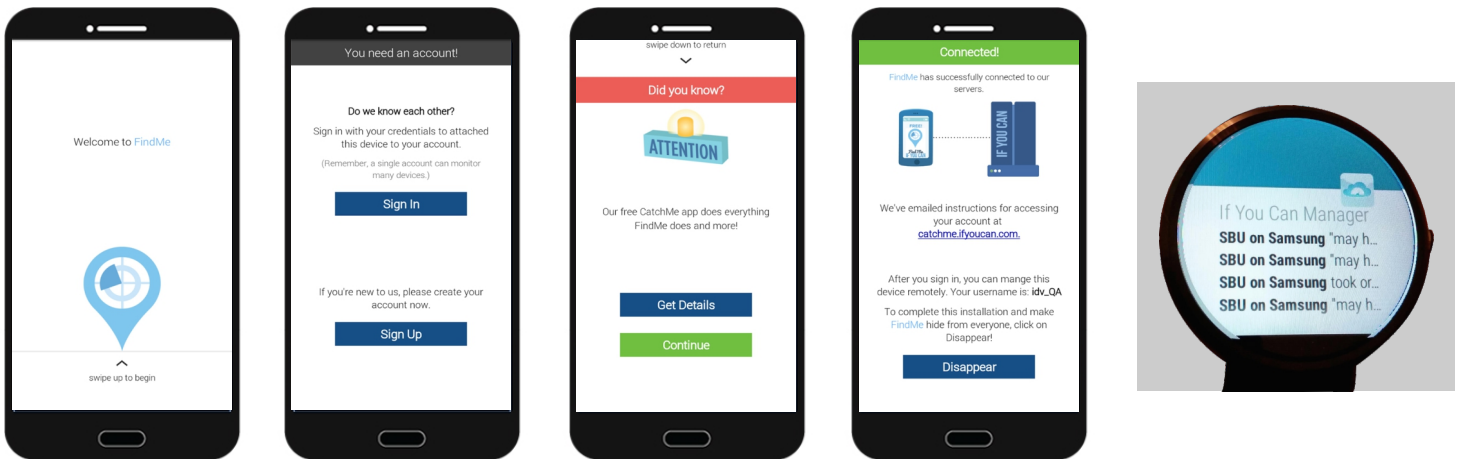

Our Solution

- ◇ We developed a suite of advanced listening agents & apps (Catch Me / Protect Me / If You Can Manager / Find Me / Unlock Me) that are installed on Android mobile devices of loved ones that users want to monitor / protect.
- ◇ These agents securely upload all device activity such as contacts, calls, text messages, calendar entries, web activity, photos, videos, sound files and device locations to the cloud.

- ◇ Once the data is in the cloud, users can securely access the device data in their account via any web browser or via 'If You Can Manager' app.
- ◇ 'If You Can Manager' app is a management companion app that enables users to actively monitor other mobile devices while on the go.
- ◇ Provided facility to remotely manage devices, factory reset and remote lock.
- ◇ System & App generated alerts on geo-fences, barriers, destinations and phone activity.

Technologies Used

- iPhone SDK
- Android SDK
- PHP / MySQL / Apache

About Mobile Pundits

Mobile Pundits is an ISO 9001:2008 Certified, leading provider of end-to-end Mobile Development & Testing solutions.

Since over 15+ Years now, Mobile Pundits' expert team has been helping our Clients with:

- ◇ Enterprise Mobility Strategy & Consulting
- ◇ Mobile Application Development
- ◇ Mobile Product Development
- ◇ Mobile Application Porting
- ◇ IoT (Internet of Things)
- ◇ Cross Platform Development
- ◇ Responsive Web Design & Development
- ◇ Mobile Testing
