Enabling Connections to Over **1Million Hotspots** Around the Globe

boingo

Background

◇ Boingo helps the world stay connected. Boingo's vast footprint of more than a million Wi-Fi locations reaches more than 1 billion consumers annually – in places as varied as airports, stadiums, universities and military bases.

◇ Wi-Fi users can connect from Laptops / Tablets / Smartphones using various OS / Hardware platforms.

Challenge

◇ Smart devices & Wi-Fi hardware Infrastructure is fragmented and presents mind numbing combination of testing possibilities. Boingo faces immense challenge in managing such Testing Complexities for continuous validation of its services in a limited time.

Idea

◇ To have the software products undergo continuous validation across different time zones for round the clock validation of Boingo Products.

◇ To have a team, as an extension to the existing personnel, having specialized skills needed for testing their software.

> " We hired them after a very thorough analysis. Their quality of the work has been spectacular and our team feels like they have a real trusted partner. "

Peter Hovenier
VP, Boingo Wireless

Our Solution

◇ Mobile Pundits setup and operated a dedicated Offshore Test Lab to test Wi-Fi Connectivity Suite and Boingo SDK's.

◇ Wi-Fi Laboratory had capability to refresh the hardware from time to time.

◇ Mimicked test environments for different security & authentication standards (WPA / WPA-PSK / WPA2 / LEAP / PEAP / TLS / TTLS / Md5).

◇ Performed extensive Performance and Regression testing using SilkTest / QTP / VC++ / C#.NET.

Technologies Used

- SilkTest
- QTP
- VC++ / C#.NET
- Java

About Mobile Pundits

Mobile Pundits is an ISO 9001:2008 Certified, leading provider of end-to-end Mobile Development & Testing solutions.

Since over 15+ Years now, Mobile Pundits' expert team has been helping our Clients with:

◇ Enterprise Mobility Strategy & Consulting

◇ Mobile Product Development

◇ IoT (Internet of Things)

◇ Responsive Web Design & Development

◇ Mobile Application Development

◇ Mobile Application Porting

◇ Cross Platform Development

◇ Mobile Testing

15+ Years of Mobile Development
