

Collaboration Tool for the Healthcare Professionals

Client Business Description

- ◇ Saudi Arabia based digital design studio delivering mobile & web Solutions in MENA region

Background

- ◇ Olar Studio is a Product designing and App development firm providing digital marketing and software development solutions
- ◇ To create a social / community platform for HealthCare Professionals exclusively on the mobile device

Idea

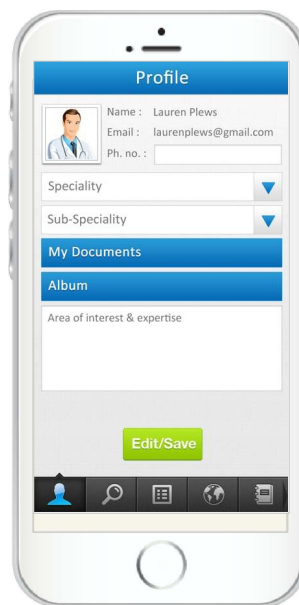

- ◇ Develop an exclusive App platform for Doctors to connect with fellow doctors
- ◇ Develop the app as a universal iOS app which can run on both iPhone and iPad

Our Solution

- ◇ Mobile Pundits developed a chat server using the open source XMPP based chat server - eJabberd.
- ◇ The App facilitated the Practitioners to chat discreetly amongst themselves.
- ◇ Practitioners could leverage the app to get in touch with experts for specific specialty / sub-specialty.
- ◇ Doctors can set their visibility settings in the app to set their privacy. They can apply similar visibility settings for receiving Broadcast messages too.
- ◇ Doctors could share 'Case of the Day' explaining case history, challenges etc. to foster community learning.

Technologies Used

- iOS SDK and Objective C
- PHP based RESTful Web Services
- eJabberd chat server
