

Restructuring and Repackaging your Salary - At your Fingertips

Client Business Description

- ◇ Smartsalary is one of Australia's largest Outsourced Salary Packaging Companies

Background

- ◇ Smartsalary specializes in Outsourced Salary Packaging servicing large corporate clients, Commonwealth and State Governments, Healthcare Groups, and Public Benevolent Institutions.
- ◇ Apart from offering salary packaging, it also provides services related to Novated Car Leasing & Fleet Management to employers and their employees across Australia.

Challenge

- ◇ To provide a Uniform UX to Enterprise users on various interfaces (Desktop, Mobile and Tablet).
- ◇ Ability to easily manage employer specific dynamic content. Using the current system based on Ektron was very cumbersome.
- ◇ To extend modern UX for old browsers (e.g. IE 8).

Idea

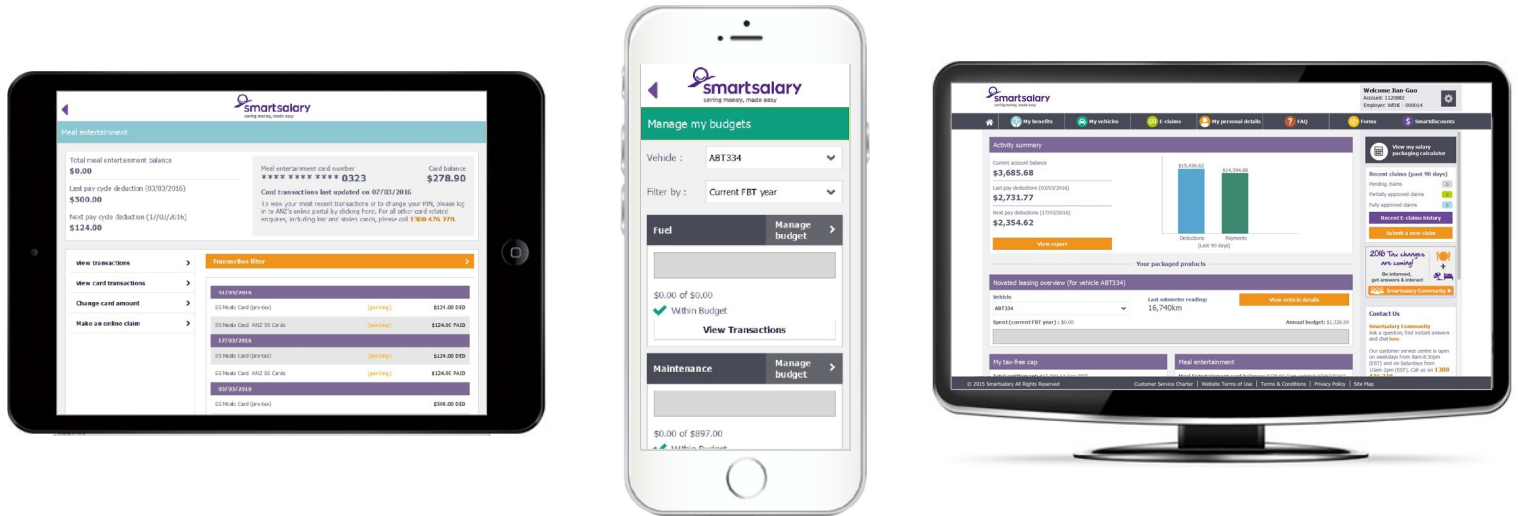

- ◇ Develop a new platform with a 'Mobile First' approach to extend uniform UX to end users on Tablets, Smartphones, Desktop browsers.
- ◇ Move away from Ektron to run the solution on an Industry validated Open Source CMS.

Our Solution

- ◇ Designed and developed a 'Mobile First' Cloud based solution using proven cross platform UI framework - Sencha Touch to provide uniform UX across platforms.
- ◇ For managing dynamic content we used open Source Drupal's Content Management System.
- ◇ Developed a simple and easy to use Employer Management Console for generating detailed & graphical reports.

Technologies Used

- Sencha Touch Framework 2.4
- Drupal 7
- AJAX and JSON
- RESTful Web Services
- Apache and MySQL
- PHP, JavaScript, CSS3 and HTML5
